|------------------------|--------|------------------|--------|
| Ширина форсунки | 29 mm | Длина | 100 mm |
| Длина | 100 mm | Диаграмма | 12 |

Указания

For noise, air consumption and blowing force values, see diagrams 1-17 in the technical information.

Описание

If correctly designed, these noise-reducing nozzles guarantee a lower noise level than conventional one-hole types with an identical blowing force. They are usually fitted with a noise-reducing plastic insert and they are recommended by the German BGIA (Institute for Occupational Safety and Health).
