

Характеристики

Информация о продукте

| | |
|------------------------|-----------------------|
| Материал | Никелированная латунь |
| Ширина форсунки | 21.5 mm |
| Длина | 100 mm |

| | |
|------------------|-----------------------|
| Резьба | G 1/4" male |
| Материал | Никелированная латунь |
| Диаграмма | 11 |

Указания

For noise, air consumption and blowing force values, see diagrams 1-17 in the technical information.

Описание

If correctly designed, these noise-reducing nozzles guarantee a lower noise level than conventional one-hole types with an identical blowing force. They are usually fitted with a noise-reducing plastic insert and they are recommended by the German BGIA (Institute for Occupational Safety and Health).
