

### Характеристики

|                            |  |
|----------------------------|--|
| <b>Применение</b>          | Air, gases, oils, greases, fuels, organic and inorganic substances |
| <b>Рабочая температура</b> | -40 °C to +100 °C  |
| <b>Вид подключения</b>     | connection nipples and coupling NW 7,2                             |

### Информация о продукте

|                            |        |   |        |
|----------------------------|--------|---|--------|
| <b>Внутренний Ø шланга</b> | 7.9 mm | <b>Внешний Ø спирали</b>                        | 115 mm |
| <b>Внешний Ø шланга</b>    | 9.5 mm | <b>Max. working pressure resistance at 23°C</b> | 12 bar |
| <b>Витки</b>               | 20     | <b>макс. рабочая длина</b>                      | 5 m    |

### Указания

Прочие данные только по запросу.

### Описание

These hoses allow gaseous and liquid media to flow safely and efficiently (Air, gases, oils, greases, fuels, organic and inorganic substances). Thanks to their small coil diameter, they are compact, easy to handle and lightweight. Very good recoil force owing to the use of nylon 12 (PA).
