

Siphons, U-shaped, with welded connection on pressure tap side

Обновлено: 04.29.24

Характеристики

Исполнение With male connector or welded connection on the pressure tap side

Материал Steel or Stainless steel

Дополнительная информация Druckentnahme horizontal (U-Form), vertikal (Kreisform)
Spannmuffe nach DIN 16283, SW 27

Информация о продукте

Резьба G 1/2

Материал CrNi steel 1.4571

Указания

Прочие данные только по запросу.

Описание

Suitable as a cooling section for liquids, gases or steam during pressure measurements. The use of a siphon permits the medium to cool down to a temperature that is compatible with the pressure gauge and protects the gauge against pulsating media. The condensate that forms in the siphon prevents the hot medium from entering the pressure gauge. We recommend filling the siphon with cooling sealing liquid prior to using the pipe.

Дополнительная информация

Pressure tap horizontal (U-shaped), vertical (circular)Female/female connector acc. to DIN 16283, AF 27
