

Характеристики

Область температур	-40 °C to +200 °C (depending on the hose quality and diameter)
Диапазон давлений	Max. 25 bar
рекомендуемые шланги	PTFE hose
Материал	нержавеющая сталь 1.4404
Уплотнение	Pure metal

Информация о продукте

L2	26 mm
SW1	16 mm
L1	52 mm

L1	52 mm
SW2	12 mm
Для шланга	10 mm / 8 mm

Указания

Описание

Supplied without seals. For use with corrosive media and at high temperatures. Screw fitting series made of stainless steel for all applications where compliance with strict tightness, pressure and temperature requirements is essential. The parts are manufactured without rubber seals, in other words they are ideal for very high temperatures or for use with corrosive liquids, e.g. in cases when FPM is no longer suitable.
